

## **AMENDMENTS TO THE SPECIFICATION**

Please add the following new paragraph after the paragraph beginning at page 13, line 12 in the application:

Fig. 2 also depicts a piston 66 and a sealing body 68 disposed in fluid passageway 65. The piston 66 and sealing body 68 are moveable within passageway 65 to selectively seal off a portion of the passageway. For example, piston 66 and sealing body 68 may be moved within passageway 65 to seal off the portion of passageway 65 directly behind slider 67 to prevent the formation of dead space where fluid could accumulate.
